Bachelor

Summer 23

ba.m5.4 20th Century History and Theory

course

Prof. Dr. Thorsten Bürklin

lecturer

Lecture II

title

The lectures impart the basic knowledge of the history of architecture and relevant theories.

Starting with modernist architecture and its roots in the 19th century, the lecture will look at important stages of architectural history as well as architectural theory (including relevant sociological and philosophical aspects) up to the present day. Examples from the visual arts round off the topics.

(In the 4th semester BA proof of study is in the form of a final discussion).
