lecturer

Urban Sketching

title

„Urban Sketching" teaches you to draw urban settings quickly with your pen. This can be done (according to your ability) with a pencil, drawing ink or even watercolor. This seminar will take place mainly outdoors, i.e. we meet at interesting places in Münster every week to draw.

To be able to sketch is not just fun, it also is a value asset to create architectural ideas without digital tools. Besides teaching technical know-how, my goal is to ease fears of the subject itself and to be brave enough to create rough and imperfect sketches. In this way, you will learn how much fun drawing can be and how a good subject will lead to a satisfying result.
