

### The Ultimate Playlist

This list comprises more than 4000 songs (song titles), which have been released between 1931 and 2024, either as a single or as a track of an album. However, one has to keep in mind that more than 300,000 songs have been listed in music charts worldwide since the beginning of the 20<sup>th</sup> century [web: <http://tsort.info/music/charts.htm>]. Therefore, the present selection of songs is obviously solely a small and subjective cross-section of the most successful songs in the history of modern music.
